Summary

Junior Backend Developer

- Programming Languages: C#
- Database Systems: MSSQL
- Web Technologies: HTML, CSS, JavaScript.
-Version Control: Git
- Adaptable & Curious: Eager to explore and learn about new technologies and industry trends.

I am a junior backend developer who is committed to continuous improvement and staying updated with the latest advancements in the field. With a strong grasp of OOP principles and Solid methodology, experience working with SQL database. I am well-equipped to contribute to backend development projects.

My proficiency in .NET technology, specifically with C# and Java, allows me to develop efficient and scalable backend solutions. While I have a basic understanding of web technologies like HTML, CSS, and JavaScript, I'm keen to expand my skill set in these areas.

I am highly adaptable and thrive on challenges, making me a valuable asset for any development team.

I am excited to bring my technical skills and enthusiasm for learning to a backend development role.

Experience

Chief Petty Officer
Turkish Navy
Aug 2010 - Sep 2023 (13 years 2 months)
